Versatile, dependable, award-winning professional artist, seeking fresh challenges and opportunities in either freelance or staff positions, as a team leader or member.

I love getting inside a client's head, giving them exactly what they want and delighting them with extras they didn't know could be done, as well as being part of an energetic, creative team who help raise each other to new heights of excellence.

I have a wide variety of experience in art direction, illustration, graphic design, animation, storyboards, layout, and character development, along with computer graphics and web design with HTML, CSS and Flash.

Mac and Windows savvy, with extensive work in Photoshop, Illustrator, Flash, Quark, ToonBoom and other applications.
